“Back in 2010 or so, a “poet / sustainability consultant” launched an artist’s community called Planetshifter.com, storytelling then became more popular and “shazam!” a new mythological journey erupted. New Mythology is a hybrid spirituality engine that combines Nature, Transition Movement, and Permaculture. It is an amazing opportunity to work locally and globally each and every day.” ([Source](#))

About MythicWarriors: Reader and Myth Engine

The Reader is a place to learn, get tools, to formulate questions, and craft creations and is organized by 17 Key Concepts and Chapters. Each Chapter includes an interview, article and messages from my mythic journey: *Nature, Ritual, Permaculture, Transition Movement, Community Design, Alchemy, Symbols, Resilience, Archetypes, ReWilding, Sharing, Rock Music, Sound, Spirituality, Tradition, Sacred, and Sacrifice.*

The Myth Engine is a process to create new stories, songs and art. This collaboration is the spiritual center, helping to redefine ritual, tradition and the sacred while raising our collective consciousness.
